MOBILEGO

MOBILE FILTER UNIT WITH HOSE TUBE ARM

The MobileGo is a mobile welding fume filter with built-in fan and a hose tube arm (EconomyArm). It contains a disposable filter package.

Thanks to the four transport wheels (two of which are swivel casters with brake), the MobileGo is suitable for use in relatively small facilities or near sources of pollution without a fixed location.

The MobileGo is an entry level extractor. It has been designed for the consumption of approx. 1 coil of solid wire or 7,5 kg/16.5 lbs of electrodes per month and TIG welding.

APPLICATIONS

The MobileGo is intended to be used for the following applications:

- MIG-MAG/GMAW welding
- TIG welding
- FCAW welding
- stick/MMAW welding
- grinding
- polishing
- finishing

SPECIFICATIONS

■ Physical dimensions and properties			
Material (housing):	electro-zinc coated steel (according to DIN EN 10152)

Application restrictions

Do not use the product for the following applications or in the following circumstances: polishing applications in combination with grinding, welding or any other application that generate sparks (fibres from polishing or abrasive flap disks are highly flammable and pose a high risk of filter fires when exposed to sparks) | aluminium laser cutting | oil mist | heavy oil mist in welding fume | arc-air gouging | extraction of aggressive fumes and gases (e.g. from acids, from alkaline, from soldering paste containing lithium) | extraction of hot gases (more than 70°C/158°F continuously) | grinding aluminum and magnesium | flame spraying | extraction of cement, saw dust, wood dust etc. | sucking cigarettes, cigars, oiled tissues and other burning particles, objects and acids | explosive environments or explosive substances/gases
