

STACK ADAPTER

TAILPIPE ADAPTER

The FBC stack adapter is compatible with Plymovent's VSR railsystem to extract exhaust emissions from fire and emergency service stations as well as military facilities.

The adapter mounts directly to the vehicle's exhaust pipe so that it can enter the VSR catcher and easily glide into the rubber seal of the VSR profile.

APPLICATIONS

The Stack Adapter is intended to be used for the following applications:

- To eliminate hazardous vehicle exhaust emissions with our vehicle exhaust capture and removal systems for the following segments: fire and emergency service stations as well as military facilities.

SPECIFICATIONS

Physical dimensions and properties

Material: zinc-plated steel

Ambient conditions

Max. relative humidity: all ambient conditions allowed

Storage conditions: all ambient conditions allowed

Where used

As adapter to regular vertical tailpipes enabling the vehicle to enter the VSR system.

Scope of supply

FBC stack adapter

Order information

Article no.: see remaining specifications

Number/package: 1

Shipping data

Gross weight: 3 kg

Packing dimensions: 500 x 500 x 300 mm

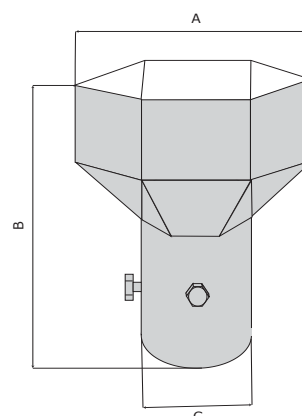

Harmonized Tariff Code: 84219990

Mounting

The stack adapter should be adjusted accordingly to allow the top edge of the adapter to protrude 40 - 50 mm above the bottom edge of the aluminum rail profile. If needed, an extension can be added to the tailpipe to reach the required height.
